

## Re-Shoot

Sunday, 15 July 2007

With the first days video passed off to our clients for approval, it was decided there needed to be a re-shoot. An uncomfortable thought for Stephen, but the new footage need to be from a higher angle... much higher. So the guys rented a high-lift and headed back out on location for a second day. Stephen was a trooper braving the heights and pushing winds, the re-shoot was wrapped up in under 3 hours. The video production with graphics by acclaimed motion graphics artist Tom Williams should be available for purchase in November.

Freddie has completed the design and installation of their new website, you can cruise over to [www.goodfieldbaseball.com](http://www.goodfieldbaseball.com) and talk some baseball. A site store is in the works, with merchandise also designed by our own Mr. Kemp.
